ALEXANDRE MORAY

French Junior Web Developer

ABOUT ME

I just finished my studies in a 5-years master degree at EPF. I am passionate about the computer science world and always curious about innovations in the information technologies field.

My last experiences strongly developed my skills as a FullStack developer using DevOps and I wish to start my career while getting to know a new company ecosystem.

WORK EXPERIENCE

FULLSTACK DEVELOPER INTERN

Takima - Bagneux, France · February 2020 - Now

Takima is a consulting company where I spent my first two months of internship being formed to Front-end, Back-end, and DevOps technologies. I joined their start-up **Jawg Maps** which creates maps for the web as a React developer during the last four months.

BLOCKCHAIN STUDY PROJECT

Talan Labs - Paris, France · September - December 2019

During my last semester of studies, I took the opportunity to work with Talan labs on developping a meet-up platform based on the Ethereum blockchain and a Vue.js front-end. A great experience shared with a team of 8 developers, a tech lead, a scrum master and a PO.
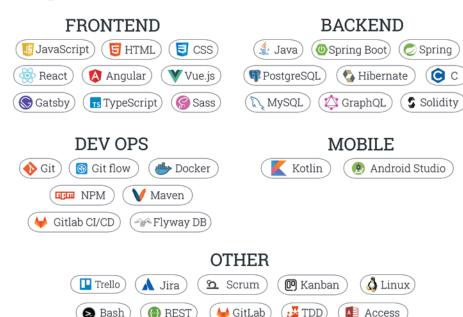

WEB DEVELOPER

Relief Apps - Madrid, Spain · August - December 2018

Relief Applications mission is to provide innovative solutions for humanitarian organizations. I spent 5 months mostly working on the front-end of an Emergency Alert System and a Beneficiary Management Platform in Angular, following the agile method.
